Project Name	Project - Smart Waste Management system for Metropolitan cities
Maximum Marks	2 Marks

IBM Cloud service

The screenshot displays the IBM Cloud Dashboard in a web browser. The browser's address bar shows 'cloud.ibm.com'. The dashboard header includes a search bar, navigation links for 'Catalog', 'Manage', and 'Gowrisankari P's Account', and a 'Create resource' button. The main content area is titled 'Dashboard' and features a 'For you' section with several recommended actions: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Create and deploy an application' (Browse our starter kits, and then select one to jump start the process to create and deploy your app), 'View APIs and SDKs' (View the API and SDK documentation for products and services in IBM Cloud), 'Use Speech to Text' (Easily convert the human voice into the written word for voice control, transcription, etc. with Speech to Text), 'Availability Monitoring' (Ensure your applications are always available and meeting user expectations for response time with Availability Monitoring), and 'Set up account' (Learn how to set up your account and control resources). Each action card includes a 'Getting started' button and a time estimate (e.g., 5 min, 2 min). The dashboard also includes a 'User access' section with 'Manage users' and 'View all' links, and a 'Planned maintenance' section with a 'View all' link. The bottom of the dashboard shows a 'CREATE THE IBM...pdf' button and a 'Show all' button. The Windows taskbar at the bottom indicates the time is 22:34 on 09-11-2022.
